

Mission Statement

To build a strong foundation on which to stand and effect change through well executed planned peaceful action.

Community – Get to know your neighbors and build a strong support system of like-minded individuals. Individuals with whom as a group or as a whole you can discuss concerns, current events, books, ideas, etc. Learn together how to live by the principles and values and “be912”. On September 12th, 2001 the day after we all experienced the most horrific event of our lifetime we stood hand in hand and sang “God Bless America”, everyone was neighborly, we were all proud to be Americans, everywhere you looked there was a American Flag, we knew what we stood for, we were reminded of what our founding fathers saw in this country, and we vowed to protect it. This is the strong foundation upon which we will stand.

Education – We need to stay educated on the issues from our local community to world events. Educating ourselves through reading up on current events, articles, and reading books. Additionally it is important to follow our local Congressmen and what they are doing. Research and education will bring us to our goals together. Additionally, we need to educate those around us. This will keep our group growing as we educate others and they join our 912 movement.

Preparedness – Once we have a strong foundation on which to stand we can make it through these tough economic times by being prepared. As individuals and as a country we will be stronger than before.

Action – Now that you know “You Are Not Alone”, you are getting prepared and you are educated about the issues, we can band together and accomplish things. Inevitably the only way to effect change is to take action. We will post links, phone numbers, addresses of representatives, and other ways to get involved with the issues that apply to this group. Making our voice heard as one, big strong voice, not a whisper lost in the noise.

who are we...

The 912 Project is a grass-roots movement initiated by Glenn Beck. It embraces Principles and Values that this country was founded on.

On March 13, 2009 after the “We Surround Them” viewing party and the unveiling of The 912 Project, very frustrated Americans sat in awe as the realization that “You Are Not Alone” was finally proving itself true and in that moment they committed to join together and change this country.

On that day iam912 was born. The group that embraces the 9 Principles and 12 Values as described by The 912 Project, www.the912project.com.

After much communication and hard work, the iam912 Mission Statement and Goals were born “Of the people, by the people and for the people”.

Who we are NOT. We are NOT affiliated with any political party (Republican, Democrat, or Independent). We are open to all people who share are common views and beliefs. We are NOT affiliated with any militia. We are NOT affiliated with any anti-government group. We believe in America and our Government. We only support peaceful protests. Simply put we are a group of like-minded individuals that believe in the 9 principles and 12 values as outlined by Glenn Beck, We are part of “The 912 Project” - www.the912project.com
